EDUCATION

BACHELOR AND HONOURS DEGREE IN ELECTRICAL ENGINEERING

Pontifical Catholic University of Chile
2019 - 2024

MONASH UNIVERSITY

Bilateral Exchange Program
2023-2024

SKILLS

- Microsoft 365: Advanced Excel (macros), PPT, Word.
- Power & Renewable Energy modelation through PowerWorld and Python
- CAD: AutoCAD
- Software: MATLAB, Python (Pandas, NumPy), C
- Native Spanish, C2 English and actively improving german skills

IGNACIO PÉREZ

ELECTRICAL ENGINEER SUMMARY

Detail-oriented Electrical Engineer. Skilled in technical documentation, CADbased design, network infrastructure, and project coordination. Strong ability to work in crossfunctional teams, ensuring smooth system deployment and delivery. Fluent in English (C1) and actively improving German.

EXPERIENCE

AUTOMATION & CONTROL SYSTEMS INTERN

WOLKE SpA (Novatronic SpA)

November 2024 - Present

- Successfully implemented telemetry for a remote power transmission system, enabling real-time monitoring of an induction heating machine for metal spears in oxy-cutting
- Assisted in hardware selection (PLCs, sensors, network devices), ensuring compliance with electrical safety standards.
- Managed and optimized the database structure, utilizing Teams, SharePoint, Excel, Word, and permissions management to enhance collaboration and data security.

INTERN - PROJECT MANAGEMENT OFFICE

Copenhagen Infrastructure Service Company (CISC) SpA

August 2024 - November 2024

- Contributed to a large-scale green hydrogen project, focusing on renewable energy solutions including wind power generation and energy storage (electrolyzers, battery systems, hydrogen storage).
- Utilized Excel (macros, pivot tables) for data management, and collaborated with a team of professionals to develop cutting-edge sustainable solutions for energy production.

TEACHING ASSISTANT (OPTIMIZATION)

Pontifical Catholic University of Chile

1st SEMESTER 2022

- Led student teams to solve complex optimization problems using Python, facilitating peer-to-peer learning and ensuring successful project completion.
