SUMMARY

Rigorous and versatile Electrical Engineer. Skilled in technical documentation, CAD based design, network infrastructure, and project coordination. Proactive and strong interpersonal abilities with experience in multicultural teams, ensuring smooth system deployment and delivery. Fluent in English (C1) and actively improving German. More information on my LinkedIn or my personal website!

PROFESSIONAL EXPERIENCE

Automation & Control Systems Intern, WOLKE SpA

Nov 2024 - Present

- Implemented telemetry for a remote power transmission system, enabling real-time monitoring of an induction heating machine for metal spears in flame cutting.
- Assisted in hardware selection (PLCs, sensors, network devices), ensuring compliance with electrical safety standards.
- Managed and optimised the company database structure, using Microsoft Teams, SharePoint, Excel, Word, and permissions management to enhance collaboration and data security.

Intern - Project Management Office, CISC SpA

Aug 2024 - Nov 2024

- Contributed to a large-scale green hydrogen project, focusing on renewable energy solutions including wind power generation and energy storage (electrolyser, battery systems, hydrogen storage). Managed to catalogue +10.000 keywords in +2000 technical files to optimise the company database.

EDUCATION

Bachelor and Honours Degree in Electrical Engineering

Feb 2019 - Dec 2024

Pontifical Catholic University of Chile

- Major in Electrical Engineering - Minor in industries
- Honours degree in Renewable Energy (Power Systems, Finance, Electrical Markets, Project Evaluation)

Bilateral Exchange Semester Program

July 2023 - Feb 2024

Monash University (Australia)

- Organisational Behaviour, Fluid Dynamics and Operations Management

TECHNICAL SKILLS

Power BI / Microsoft 365

Matlab (basics)

PowerWorld (Power Systems)

Advanced Excel (macros)

Python (advanced)

R (Data Analysis)

Power Point, Word

C (microcontrollers)

Type B driver's License

EXTRACURRICULAR ACTIVITIES, HOBBIES AND LANGUAGES

- **Activities:** Reading, cultural exchange, active learning, and personal development.
- **Languages:** English - TOEFLiBT (96), Spanish - native and German - A1 certificate.
- **University Rugby Team:** Represented the university as a varsity rugby player for three (3) years.

VOLUNTEER WORK

- Participated in Trabajos de Invierno (TDI), a social initiative aimed at empowering economically vulnerable families in rural Chile by providing them with tools for self-sufficiency. Over three campaigns in the La Araucanía Region, I helped build greenhouses and water towers in collaboration with local communities ("comunas"). On one occasion, I led a team of 10 students (most with no prior experience), to successfully construct a greenhouse and water tower to support sustainable food production in a period of 8 days..
